

SHASWAT RAJ

SOFTWARE ENGINEER | FULL-STACK DEVELOPER | AI & OPEN SOURCE

✉ sh20raj@gmail.com |  github.com/sh20raj |  sh20raj.github.io |  linkedin.com/in/sh20raj |  India

EDUCATION

Birla Institute of Technology, Mesra
Bachelor of Technology (B.Tech)
Computer Science & Engineering
Expected Graduation: **2028**

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- C++
- Python
- JavaScript
- TypeScript

FRONTEND

- React
- Next.js
- HTML5
- CSS3
- Tailwind CSS

BACKEND

- Node.js
- Express.js
- REST APIs

DATABASES

- PostgreSQL
- MySQL
- Redis

CLOUD & DEVOPS

- Docker
- Git
- GitHub Actions
- Cloudflare Workers
- Google Cloud Platform

OTHER

- Data Structures & Algorithms
- System Design
- Artificial Intelligence
- Machine Learning
- Performance Optimization
- SEO

PROFESSIONAL SUMMARY

Computer Science undergraduate building production-scale software, AI products, and developer tools. Creator of **10+** SaaS applications, **50+** npm packages (**1M+** monthly downloads combined), and products serving tens of thousands of users. Experienced in full-stack development, distributed systems, AI, cloud infrastructure, and open-source software.

FEATURED PROJECTS

Bitotsav '26 Engineering Lead

[Next.js](#) • [PostgreSQL](#) • [Redis](#) • [OpenAI](#)

- Sole Engineering Lead responsible for architecture, backend, frontend, infrastructure, deployment, and security of the complete festival technology ecosystem.
- Designed the end-to-end system architecture serving **5,000+** participants.
- Built encrypted QR generation, validation, anti-forgery verification, secure entry system, admin dashboard, announcements, volunteer portal, team management, and scoring platform.
- Designed the security architecture and presented technical architecture, security model, and deployment strategy to college administration, professors, and organizing committee.
- Successfully operated the production platform throughout the festival with reliable performance.

SopKit (formerly 30tools)

[Next.js](#) • [TypeScript](#) • [Cloudflare](#) • [SEO](#)

- Built a collection of **460+** browser-based developer and productivity tools.
- Scaled to **4.3M+** monthly requests and **45K+** active users.
- Optimized SEO, caching, and Core Web Vitals to achieve large-scale organic growth.

Telegram Bot Platform

[Node.js](#) • [Telegram API](#) • [Cloudflare](#)

- Built and maintained production Telegram bots serving **21K+** monthly active users.
- Implemented automation, media processing, AI integrations, and high-performance backend services.

Kishan AI

[Python](#) • [OpenAI](#) • [Computer Vision](#)

- Built an AI assistant for farmers providing crop disease detection, weather insights, mandi prices, and multilingual voice support.
- Shortlisted among AICTE Productization Fellowship 2025 **Top 500** teams across India.

Debo

[Next.js](#) • [AI](#) • [Vector Search](#) • [RAG](#)

- Developed an AI-powered Memory Operating System transforming notes, documents, and voice into a searchable knowledge graph.
- Implemented Retrieval-Augmented Generation (RAG), semantic search, and conversational AI.

OPEN SOURCE

15K+

GitHub contributions

300+

merged pull requests

50+

npm packages created

1M+

monthly npm downloads (combined)

Active contributor to open-source projects including [Google Gemini CLI](#) and AI infrastructure repositories.

ACHIEVEMENTS

10+

Hackathon wins

1M+

npm package downloads per month

4.3M+

monthly requests across products

45K+

active users across products

21K+

Telegram bot users
